

AMENDMENTS TO THE SPECIFICATION

Please replace paragraph [0025] with the following Amended paragraph:

According to an aspect of the present invention, a storage medium on which a video object title is recorded, ~~being~~ is supported by a plurality of voice types and subtitles. Additional information may be hierarchically recorded and a markup language is used to implement each layer for extensibility. The markup language, which describes record units and reproduction units, is called a media description language. According to an aspect of the present invention, the record unit and the reproduction unit are functionally divided as individual units.
